Special Education Basic State Grant	88%	11%	\$ 132,768,017	4.50%	5,276,558	656,853	Other State Grants	EDUCATION	Formula	Discretionary	Because this program receives an advance appropriation, across-the-board rescissions in appropriations bills apply to current year funds and advance funds from the previous year's appropriations bill. They do not apply to advance appropriations for the succeeding fiscal year. However, the 0.2% rescission in the FY 2011 appropriations bill took place after the Department of Education (ED) obligated advance funds from FY 2010. Thus, the FY 2010 figures remained the same, and ED cut all funds included for this program in the FY 2011 budget by 0.2% and reduced the FY 2011 current year funds by this amount. ED has indicated that it will not apply the FY 2013 sequester to school year (SY) 2012-2013 funds (the FY 2013 advance portion included in the FY 2012 appropriations). Instead, the amount that would have been sequestered in SY 2012-2013 will be taken from SY 2013-2014 funds (the FY 2013 current year appropriation), which are also subject to the 5.3% cut.
